PROFESSIONAL SUMMARY

Health Information and Communication Technology undergraduate pursuing a career in software engineering, with a strong focus on full-stack and web application development. Hands-on experience building and improving responsive web systems, REST/API integrations, secure authentication and RBAC workflows, relational databases, schema migrations, dashboards, and production-oriented application features. Skilled in React.js/TypeScript, JavaScript, Spring Boot, PostgreSQL, Supabase, Flutter Web/Dart and modern Git-based development workflows.

TECHNICAL SKILLS

Programming: JavaScript, TypeScript, Java, Kotlin, Dart, Python

Frontend & Web: React.js, Vite, HTML5, CSS3, Flutter Web, responsive UI

Backend & APIs: Spring Boot, REST APIs, Supabase Edge Functions, API integration

Database & Cloud: PostgreSQL, SQL, Supabase Auth/Storage, RLS, schema migrations

Engineering: Git/GitHub, npm, debugging, validation, RBAC, workflow design

Tools: Postman, Docker (Basics), Flutter tooling

Specialized: FHIR R4, EHR/CDSS, AI/ML fundamentals, predictive analytics

Web Practices: Responsive UI, API integration, secure authentication/RBAC

SELECTED SOFTWARE PROJECTS

GovCare EHR - Full-Stack Healthcare Platform with AI-CDSS

Technologies: React.js | TypeScript | PostgreSQL | REST APIs | FHIR R4

- Developed and improved EHR workflows for patient records, visits, queues/tokens and hospital operations with secure role-based access.
- Implemented backend/database improvements including multiple patient tokens, separate visit/queue identifiers, collision-safe numbering and migrations; integrated CKD AI risk-assessment/CDSS workflows.

InsureDrive - Vehicle Insurance & Fleet Management Platform

Technologies: Flutter Web/Dart | Supabase Auth/PostgreSQL/RLS | Edge Functions | FCM

- Built a Sri Lanka-focused vehicle insurance and compliance platform for administrators, insurance officers and vehicle owners with RBAC, vehicle/policy CRUD, renewal history and document/compliance tracking.
- Implemented insurance, revenue licence, emission and fitness-expiry monitoring with database-authoritative due dates, notification history and automated reminder architecture.
- Extended the platform with GPS/fleet workflows including live location, trips, overspeed/geofence events, secure device pairing and realtime dashboard concepts.

FIHST Inventory Management System

Technologies: Flutter/Dart | QR Scanning | Responsive UI

- Developed and debugged inventory workflows with QR item identification and stock management; resolved loading/startup issues while preserving existing features.

EDUCATION

B.H.Sc. (Hons) in Health Information and Communication Technology | 2023 - 2027

Gampaha Wickramarachchi University of Indigenous Medicine

CERTIFICATIONS

Healthcare Data Security, Privacy, and Compliance - Johns Hopkins University | Coursera | 2026

Introduction to Healthcare - Stanford Online | Coursera | 2026

LANGUAGE SKILLS

Sinhala

English
